

INSTRUCTIONAL ARRANGEMENTS

To meet the developmental needs of learners at the various stages of their lives, the programs in Florence City Schools are arranged according to these patterns:

1. Grades K-4
2. Grades 5-6
3. Grades 7-8
4. Grade 9
5. Grades 10-12

It is believed that these groups address the academic, physical, social and emotional needs of students since they reflect appropriate age/grade combinations. Specialized programs (e.g., alternative education, homebound instruction) are made available to students requiring such services.

The organizational patterns for instruction within the schools of the District are varied to meet the needs of the learners within each school community. The instructional arrangements are designed to provide for the individual student the kind and amount of instruction which are most appropriate, to the extent that these facts may be identified by sound guidance procedures.
