

Courses listed below may be taken to satisfy Arts or Elective credit on an individual basis.

For students wishing to pursue the Fine Arts Distinction, if Digital Media is the Declared study, the following would be the pathway:

Grade 9	Grade 10	Grade 11	Grade 12
Introduction to Television Production	TV Production: Writing, Producing, Performing	TV Production: Studio Operations	TV Production: Photography and Editing
			Advanced Television Production

440017

**INTRODUCTION TO TELEVISION PRODUCTION** (Grades 9-12)

**FEE: \$20.00**

In this course, students gain a basic overview of television production skills and professional opportunities. It includes classroom and laboratory activities related to all aspects of television performance, production and operations. Upon successful completion of the course, students are prepared for a specialized high school course or for further study in television, film and communication at the college level. *This course can be used to satisfy the Career Tech Education or Fine Arts requirement.*

440018

**TV PRODUCTION: WRITING, PRODUCING, PERFORMING** (Grades 10-12)

**FEE: \$20.00**

Prerequisites: Introduction to Television Production

This one-credit course provides students with a variety of real-world learning opportunities through laboratory experiences in television writing, producing, and performing. Students perform specialized roles in a regularly-scheduled television program. Students who successfully complete this course are prepared for further study in television, film, and communications at the college level; or for entry-level positions of employment in the industry. *This course can be used to satisfy the Career Tech Education or Fine Arts requirement.*

440019

**TV PRODUCTION: STUDIO OPERATIONS (Spring)** (Grades 10-12)

**FEE: \$20.00**

Prerequisites: Introduction to Television Production

This one-credit course provides students with opportunities to participate in real-world laboratory experiences. They perform specialized roles in a regularly-scheduled television program. Students who successfully complete this course are prepared for further study in television, film, and communications at the college level; or for entry positions of employment in the industry. *This course can be used to satisfy the Career Tech Education or Fine Arts requirement.*

440020

**TV PRODUCTION: PHOTOGRAPHY AND EDITING** (Grades 10-12)

**FEE: \$20.00**

Prerequisites: TV Production: Writing, Producing and Performing

This one-credit course provides students with a variety of real-world learning opportunities through laboratory experiences in photography and editing. Students perform specialized roles in a regularly-scheduled television program. *This course can be used to satisfy the Career Tech Education or Fine Arts requirement.*

440021

**ADVANCED TELEVISION PRODUCTION** (Grades 10-12)

**FEE: \$20.00**

Prerequisites: TV Production: Photography and Editing

This course provides opportunities for students to create and market video productions. Students work independently to create special long-term projects. Those who successfully complete this course are prepared for further study at the college level or for entry-level positions in the television, film and communications industries. *This course can be used to satisfy the Career Tech Education or Fine Arts requirement.*
